Ref: J7-DRS-EWS-15 Daventry to Mossend

Dear Paul,

NETWORK CODE J7: FREIGHT TRANSFER MECHANISM

In accordance with Part J7.10 of the Network Code, please find detailed below the grant of access rights made by Network Rail to Direct Rail Services Limited following an application made under Part J7 of the Network Code. The rights have been transferred from English Welsh & Scottish Railway Limited (EWS) and relate to EWS Service Group 4068.

The rights which have transferred from the EWS Track Access Contract (Freight Services) dated 28 May 2002, and which expires on 31 May 2007, are detailed below:

4S62 13.56 SX Warrington Arpley to Mossend Down Yard

The rights which have transferred from the EWS Track Access Contract (Freight Services) dated 09 February 2006, and which commences on 01 June 2007, are detailed below:

4S62 12.12 SX Daventry IRFT to Mossend Down Yard

Please also note that as per EWS' letter dated 25 September 2006, attached for your reference, EWS also agree to relinquish the spot bid for the following:

4M41 05.35 SX Mossend to Daventry IRFT

Network Rail recognises that, as this does not formally appear in EWS' rights table as a right, it does not require removing from the rights table under the Part J process.
