

ASSOCIATION of TRAIN OPERATING COMPANIES

Andrew Eyles  
Sustainable Development Manager  
Office of Rail Regulation  
1 Kemble Street  
London  
WC2B 4AN

21 September 2007

Dear Andrew

**Revised Environmental Policy Guidance Consultation**

ATOC welcomes the above consultation and the acknowledgement that the industry is working hard to improve energy efficiency and reduce its environmental impact still further.

The revised Environmental Policy guidance is a useful step in support of this process and we look forward to continuing to work with ORR, on behalf of train operators, on the important issues of rail's sustainability and environmental impact.

Yours Sincerely

Leigh Thompson  
Policy Support Manager
