

Notice 301266366 served against Network Rail Infrastructure Ltd on 22 April 2008

Notice type Improvement Notice

Summary The unworked crossover points near Ockley Station are not under control of the signaling system. Therefore the position of the points is not detected for train movements over them. This creates a risk of train derailment or collision and does not ensure, so far as is reasonably practicable, the safety of persons using the railway.
