

Notice 301550999 served against Network Rail Infrastructure on 28 August 2008

Notice type	Improvement Notice	
Summary	The work platforms and gantry structure supporting them at the signals near Bromsgrove Station are not being maintained in good repair and they do not provide a suitable surface to be used as a means of access to equipment requiring periodic maintenance. There is a risk of individuals falling a distance, which is liable to cause personal injury, should the work platform fail.
