NEW W10 GAUGE SERVICES

****CONFIDENTIAL****

I'm happy for it to be known that GBRf will want to run two more trains, every weekday, between Felixstowe and "Yorkshire terminals" but the finer detail needs to remain confidential. There has been no formal dialogue with Network Rail concerning these new services.

New Services

****CONFIDENTIAL****

Please note that I have not included any Network Rail Bulk Ballast or Sleeper infrastructure services that are currently being operated by GBRf as Network Rail would fit these services around any re-cast timetable for the proposed franchises.

Please let me know if you require more detail than that supplied above.
